**Brainstorming competition**

Stimulating Brain Bee attracts bright students to McMaster

Brain teasers

Try to brain on some of these questions from Brain Bee competition.

1. **How many neurons do you have?**

2. **How many unnecessary neurons do you have?**

3. **What is the number of people who have kissed you?**

4. **What is the name of what part of a neuron?**

5. **How many bones do you have in your skull?**

6. **How many brain disorders do people suffer from?**

7. **Who is the brains behind your government?**

8. **How many neurons do you lose each day?**

9. **What does Prozac relieve symptoms of?**

10. **What is the Greek word for the branches of a tree?**

11. **What is the streetlight system?**

12. **What is the streetlight system?**

The competition is broken up into several rounds of questions:

1. The first round was written by top five students,
2. Each student then answered questions in turn until one got one wrong or couldn't answer.
3. When there is a tie, the students move on to the second round.
4. The questions continue, with students moving on to the second round until one gets it right.
5. Everyone who is still in the competition is asked to provide one question as to what they think it could be.
6. The students then write their questions, collected into a notebook in the competition.

The first rounds were written by top five students, each student then answered questions in turn until one got one wrong or couldn't answer.

Brain Bee to McMaster four years ago

...Ayan Dey, centre, and Jennie Pouget, both 17 yesterday for the second month in a row.
